SHOWER TRAYS

SELECT

SELECT, various formats and colours, smooth texture finish

The Select series offers a wide range of interior forms to design a shower tray.

The series is destined to enable shower area designers to be able to configure a solution that is both singular and adequate to their needs. The designer, once the exterior form of the shower tray has been determined, then moves on to selecting the interior, its position and its orientation from the predetermined form or forms available.

Select is an aid to the designer, allowing for the freedom to find solutions when faced with complex forms.

SHOWER TRAYS

A CHOICE OF SHOWER TRAY INTERIORS

S1 74x74
Minimum 80x80

S2 84x84
Minimum 90x90

S3 74x94
Minimum 80x100

S4 84x104
Minimum 90x110

S5 74x74
Minimum 80x80

S6 74x84
Minimum 80x90

S7 84x94
Minimum 90x100

The distance from the center of the drainage to the nearest border is 17 cm, with the exception of S5, where it is centered

S8 74x114
Minimum 80x120

S9 84x144
Minimum 90x150

S10 Ø74
Minimum Ø80

S11 Ø84
Minimum Ø90

S12 74x94
Minimum 80x100

S13 74x94
Minimum 80x100

In order to achieve a solution regarding shower trays measuring more than 230 cm and up to 400 cm in length, an area based on the assembly of two units may be designed. The two units, up to 200 cm in length, are supplied independently of one another, however, their design is closely coordinated to guarantee a correct assembly at their final location (see the Unique series on page 24 for a similar solution).
